Course Catalog
(*Pilot Program: contact office before applying)

See our website for Faculty Coordinators and course costs: www.ece.uconn.edu/courses

Allied Health Sciences

**AH 1100: Introduction to Allied Health Professions**
One credit. *Offered Fall or Spring.*

Overview of health professions, team approach to health care delivery.

*Eligibility Guidelines: Instructor consent is required.*

**AH 2001: Medical Terminology**
Two credits. *Offered Fall, Spring, or Full-year.*

Introduction and mastery of medical terminology through presentation of word roots, prefixes and suffixes. Disease processes, symptoms, diagnosis, and treatments that affect various body systems. Terminology associated with disease processes, symptoms, diagnosis, clinical procedures, laboratory tests, and treatments that affect various body systems.

*Eligibility Guidelines: Student must have successfully completed or be enrolled concurrently in high school biology. Instructor consent is required.*

**AH 4092: EMT Training**
Four credits. *Offered Full-year.*

Instruction in basic life support skills, treatment of bleeding control and shock recognition, care for trauma victims, medical emergencies. Supervised practice experience and hands-on instruction of theory. Includes a 10-hour observation experience outside of classroom instruction. Meets the performance requirements of the National Registry of Emergency Medical Technicians (NREMT) certification exam. Students must first register for Hospital's EMT training program (separate Hospital program costs apply).
Eligibility Guidelines: Successful completion of high school biology and chemistry, and instructor consent, is required.

### American Studies

**AMST 1201: Seminar in American Studies**
Three credits. *Offered Fall, Spring, or Full-year.*

What is an American? A multi-disciplinary inquiry into the diversity of American societies and cultures.

Eligibility Guidelines: Successful completion of two years of high school history and two years of high school English are recommended.

### Animal Science

*Contact UConn ECE before applying as these courses runs in a limited number of Agriscience high schools only.*

**ANSC 1602: Behavior and Training of Domestic Animals**
Three credits. *Offered Fall, Spring, or Full-year.*

Application of behavior of cattle, horses, sheep, goats, swine and poultry to their management, training and welfare. Basic principles of genetics and physiology of behavior, perception, training, learning, motivation, and stress with consideration of integrated behavioral management and animal welfare.

Eligibility Guidelines: Student must be enrolled in an Agriscience program in Connecticut. Student must have completed Biology and the freshman year animal science course in high school.

**ANSC 1676: Introduction to Companion Animals**
Three credits. *Offered Fall, Spring, or Full-year.*

Basic concepts of the nutrition, physiology, health, and management of companion animals.

Eligibility Guidelines: Student must be enrolled in an Agriscience program in Connecticut. Student must have completed Biology and the freshman year animal science course in high school.
**ANSC 2251: Horse Science***
Three credits. *Offered as the last course in a four semester sequence.*

Valuable to animal science majors. Includes horse types and breeds and their nutrition, breeding, evaluation, behavior, care, and management with attention given to detailed studies of the problems and practices of horse production and use.

*Eligibility Guidelines: Student must be enrolled in an Agriscience program in Connecticut. Student must have completed Biology and the freshman year animal science course in high school.*

---

### Anthropology

**ANTH 1000: Other People’s Worlds***
Three credits. *Offered Fall, Spring, or Full-year.*

A survey of the development, contributions, and contemporary social problems of selected non-Euroamerican peoples and cultures.

*Eligibility Guidelines: Successful completion of two years of high school or equivalent through grade advancement and instructor consent is required.*

---

### Art

**ART 1030: Drawing I**
Three credits. *Offered Fall, Spring, or Full-year.*

Fundamental principles of drawing based on observation.

*Eligibility Guidelines: Successful completion of one full year of high school art instruction is recommended.*

---

### Biology

**BIOL 1107: Principles of Biology I**
Four credits. *Offered Fall, Spring, or Full-year. May be taken in either order.*

Designed to provide a foundation for more advanced courses in Biology and related sciences. Topics covered include molecular and cell biology, animal anatomy and physiology. Laboratory exercises in BIOL 1107 include dissection of preserved animals.

*Eligibility Guidelines: Student must have studied/been exposed to the fundamental basic principles of inorganic and organic chemistry in a course that in addition contains a laboratory component.*
**BIOL 1108: Principles of Biology II**  
Four credits. Offered Fall, Spring, or Full-year. May be taken in either order.

Designed to provide a foundation for more advanced courses in Biology and related sciences. Topics covered include plant biology, genetics, ecology, and evolution.

*Eligibility Guidelines:* Student must have studied/been exposed to the fundamental basic principles of inorganic and organic chemistry in a course that in addition contains a laboratory component.

---

**Chemistry**

**CHEM 1127Q: General Chemistry I**  
Four credits. Offered Fall only.

Designed to provide a foundation for more advanced courses in chemistry. Atomic theory, laws and theories concerning the physical and chemical behavior of gases, liquids, solids, and solutions. Properties of some of the more familiar elements and their compounds. Quantitative measurements illustrating the laws of chemical combination in the first semester lab.

*Eligibility Guidelines:* Successful completion of basic algebra is recommended. A student must pass CHEM 1127Q with a grade of a “C” or higher to continue on to CHEM 1128Q.

---

**CHEM 1128Q: General Chemistry II**  
Four credits. Offered Spring only.

Designed to provide a foundation for more advanced courses in chemistry. Atomic theory, laws and theories concerning the physical and chemical behavior of gases, liquids, solids, and solutions. Properties of some of the more familiar elements and their compounds. Equilibrium in solutions and qualitative reactions of the common cations and anions in the second semester lab.

*Eligibility Guidelines:* Successful completion of basic algebra is recommended. A student must pass CHEM 1127Q with a grade of a “C” or higher to continue on to CHEM 1128Q.

---

**Chinese**

**CHIN 1114: Intermediate Chinese II**  
Four credits. Offered Full-year only.

Development of ability to communicate in Chinese, orally and in writing.
Eligibility Guidelines: Three or more years of high school Chinese, or instructor’s consent, is required.

### Classics

**CAMS 1103: Classical Mythology**
Three credits. Offered Fall, Spring, or Full-year.
Origin, nature, and function of myth in the literature and art of Greece and Rome and the re-interpretation of classical myth in modern art forms.

Eligibility Guidelines: Instructor consent is required.

---

**CAMS 3101: Topics in Advanced Greek**
Three credits. Offered Fall, Spring, or Full-year.

Not open for credit to students who have had three or more years of Greek in high school, except with Departmental consent. With a change in content, may be repeated for credit. Involves reading in Greek. Reading of Ancient Greek texts in the original.

Eligibility Guidelines: Successful completion of two semesters of accelerated elementary Greek or the equivalent is required.

**CAMS 3102: Topics in Advanced Latin**
Three credits. Offered Fall, Spring, or Full-year.

With a change in content, may be repeated for credit. Reading of Latin texts in the original.

Eligibility Guidelines: Successful completion of three or more years of high school Latin (Latin 1-3 at the high school level) or the equivalent is required.

### Economics

**ECON 1000: Essentials of Economics**
Three credits. Offered Fall, Spring, or Full-year. Not open to students who are currently enrolled in or who have passed ECON 1201 or 1202.

A general introduction to micro- and macroeconomics. Economic concepts to be taught include opportunity costs, demand and supply, incentives, comparative advantage, inflation and employment policies, balance of international payments, and economic growth.
Eligibility Guidelines: Successful completion or simultaneous enrollment in Intermediate Algebra/Algebra II and Geometry are required.
**ECON 1201: Principles of Microeconomics**
Three credits. *Offered Fall, Spring, or Full-year. May be taken before or after ECON 1202.*

How the invisible hand of the market functions through the economic decisions of firms and individuals. How prices, wages and profits are determined, resources are allocated and income is distributed. Topical subjects (e.g., energy policy and health care).

*Eligibility Guidelines: Successful completion or simultaneous enrollment in Intermediate Algebra/Algebra II and Geometry are required.*

---

**ECON 1202: Principles of Macroeconomics**
Three credits. *Offered Fall, Spring, or Full-year. May be taken before or after ECON 1201.*

The organization and function of the economic system as a total unit. Economic decisions, institutions, and policies that determine levels and rates of growth of production, employment, and prices. Topical subjects (e.g., government budget deficits and current interest-rate policy).

*Eligibility Guidelines: Successful completion or simultaneous enrollment in Intermediate Algebra/Algebra II and Geometry are required.*

---

**Educational Leadership**

**EDLR 1162: Health and Education in Urban Communities**
One credit. *Offered Fall, Spring, or Full-year.*

As an introductory course, EDLR 1162 explores the historical and social forces that shape health and education in urban communities, specifically in Connecticut. Topics of study will include poverty, culture, and identity and how these phenomena affect children’s health, nutrition, schooling and opportunities for success. Through readings, films, discussion, reflection and service-learning opportunities, class members analyze policies, norms and beliefs in our society. Students will be challenged to consider how these trends may lead us to a more just society and how these may perpetuate injustice.

*Eligibility Guidelines: Instructor consent is required.*

---

**Educational Psychology**

**EPSY 1100: Introduction to Special Education**
Three credits. *Offered Fall, Spring, or Full-year.*

Special education services in American education, including various exceptionalities and the roles of professionals.
Eligibility Guidelines: Successful completion of three years of high school English and instructor recommendation.

### Engineering

**CE 2110: Applied Mechanics I**
Three credits. *Offered Fall, Spring, or Full-year.*

Fundamentals of statics using vector methods. Resolution and composition of forces; equilibrium of force systems; analysis of forces acting on structures and machines; centroids; moment of inertia.

Eligibility Guidelines: Successful completion or concurrent enrollment in MATH 1131Q or AP Calculus is required.

### English

**ENGL 1004: Introduction to Academic Writing**
Four credits. *Offered Fall, Spring, or Full-year.*

Development of the reading and writing skills essential to university work. Students placed in ENGL 1004 must pass the course before electing ENGL 1010 or 1011.

ENGL 1004 is designed to prepare students not yet qualified to take the required academic writing seminar (ENGL 1010 or 1011) but who would benefit from a preparatory course that carries college credit. Please contact the UConn ECE Program Office before considering offering the course as it is not open without approval from our office.

Eligibility Guidelines: Successful completion of two years of high school English is required.

---

**ENGL 1010: Seminar in Academic Writing**
Four credits. *Offered Fall, Spring, or Full-year.*

Instruction in academic writing through interdisciplinary reading. Assignments emphasize interpretation, argumentation, and reflection. Revision of formal assignments and instruction on grammar, mechanics, and style.

Eligibility Guidelines: Successful completion of two years of high school English is required.

---

**ENGL 1011: Seminar in Writing Through Literature**
Four credits. *Offered Fall, Spring, or Full-year.*
Instruction in academic writing through literary reading. Assignments emphasize interpretation, argumentation, and reflection. Revision of formal assignments and instruction on grammar, mechanics, and style.

Eligibility Guidelines: Successful completion of two years of high school English is required.

### French

**FREN: 3250: Global Culture I**  
Three credits. Offered Fall or Full-year.

Intense study of oral French. Learning of oral techniques of communication in conjunction with weekly topics of conversation associated with various francophone cultures. Rigorous and active oral practice through dialogues, interviews, round tables, and oral reports.

Eligibility Guidelines: Successful completion of three full years of high school French, or instructor consent, is required.

---

**FREN 3268: Grammar and Composition**  
Three credits. Offered Spring or Full-year.

Advanced study of French texts and extensive written practice in a variety of forms ranging from compositions, essays, summaries, and film reviews.

Eligibility Guidelines: Successful completion of three full years of high school French, or instructor consent, is required.

### Geosciences

**GSCI 1051: Earth's Dynamic Environment**  
Three credits. Offered Fall, Spring, or Full-year.

Origin and history of planet Earth, emphasizing how rock, air, water, and life interact at different scales to produce the earth's crust, landforms, life systems, natural resources, catastrophes, and climatic regimes. Provides a scientific context for human-induced global change

Eligibility Guidelines: To be determined, conversations will happen with the eligible high school partners.
**German**

**GERM 3233: Building Language Skills through Culture I**
Three credits. *Offered Fall, Spring, or Full-year.*

Development of oral and written skills using a content-based methodology and drawing on texts that deal with issues in contemporary culture of German-speaking countries. Emphasis on acquisition of a sophisticated understanding of cultural differences while building vocabulary, improving accuracy, and increasing facility in self-expression and communication.

*Eligibility Guidelines: Successful completion of three or more years of high school German, or instructor consent, is required.*

**GERM 3255: Studies in 20th Century German Literature**
Three credits. *Offered Fall, Spring, or Full-year. Prerequisite: GERM 3233.*

Study of a cohesive group of texts that mark the period. Attention will be given to the relevant socio-historical context and to the visual and performing arts. Taught in German.

*Eligibility Guidelines: Successful completion of GERM 3233 is required.*

**History**

**HIST 1300: Western Traditions Before 1500**
Three credits. *Offered Fall, Spring, or Full-year.*

An analysis of the traditions and changes which have shaped Western political institutions, economic systems, social structures, and culture in ancient and medieval times.

*Eligibility Guidelines: Successful completion of at least one year of a high school history/social studies course recommended.*

**HIST 1400: Modern Western Traditions**
Three credits. *Offered Fall, Spring, or Full-year.*

History of political institutions, economic systems, social structures, and cultures in the modern Western world.

*Eligibility Guidelines: Successful completion of at least one year of a high school history/social studies course recommended.*
**HIST 1501: United States History to 1877**  
Three credits. *Offered Fall, Spring, or Full-year.*

Surveys political, economic, social, and cultural developments in American history through the Civil War and Reconstruction.

*Eligibility Guidelines: Successful completion of at least one year of a high school history course recommended.*

---

**HIST 1502: United States History Since 1877**  
Three credits. *Offered Fall, Spring, or Full-year.*

Surveys political, economic, social, and cultural developments in American history from 1877 to the present.

*Eligibility Guidelines: Successful completion of at least one year of a high school history course recommended.*

---

### Human Development & Family Sciences

**HDFS 1070: Individual & Family Development**  
Three credits. *Offered Fall, Spring or Full-year.*

Human development throughout the life span, with emphasis upon the family as a primary context.

*Eligibility Guidelines: Successful completion of two years of English/Language Arts, one year of social studies, and one year of science, or instructor consent, is required.*

---

### Human Rights

**HRTS 1007: Introduction to Human Rights**  
Three credits. *Offered Fall, Spring, or Full-year.*

Exploration of central human rights institutions, selected human rights themes and political controversies, and key political challenges of contemporary human rights advocacy.

*Eligibility Guidelines: Successful completion of two years of high school social studies courses, or consent of the instructor, is recommended.*
### Italian

**ILCS 3239: Composition & Conversation I**  
Three credits. *Offered Fall, Spring, or Full-year. Prerequisite: ILCS 1148 or equivalent.*

Practice in written and oral composition. Syntax study.

*Eligibility Guidelines: Successful completion of the equivalent of four Italian language courses (two courses at the Elementary level & two at the Intermediate level) and instructor consent. A student must pass ILCS 3239 with a grade of a “C” or higher to continue on to ILCS 3240.*

---

**ILCS 3240: Composition & Conversation II**  
Three credits. *Offered Fall, Spring, or Full-year. Prerequisite: ILCS 3239 or equivalent.*

Further practice in written and oral composition. Treatment of the finer points in syntax.

*Eligibility Guidelines: Successful completion of the equivalent of four Italian language courses (two courses at the Elementary level & two at the Intermediate level) and instructor consent. A student must pass ILCS 3239 with a grade of a “C” or higher to continue on to ILCS 3240.*

### Latino and Latin American Studies

**LLAS 1190: Perspectives on Latin America**  
Three credits. *Offered Fall, Spring, or Full-year.*

A multidisciplinary course including geography, indigenous peoples, colonization and nation formation; society, politics, economy, and culture of contemporary Latin America and its place in today’s world.

*Eligibility Guidelines: Successful completion of two years of high school history and one year of high school Spanish are recommended.*

### Marine Science

**MARN 1001: The Sea Around Us**  
Three credits. *Offered Fall, Spring, or Full-year.*

The relationship of humans with the marine environment. Exploitation of marine resources, development and use of the coastal zone, and the impact of technology and pollution on marine ecosystems.

*Eligibility Guidelines: Successful completion of at least one year of a high school science course or instructor consent is recommended.*
MARN 1002: Introduction to Oceanography
Three credits. Offered Fall, Spring, or Full-year.

Processes governing the geology, circulation, chemistry, and biological productivity of the world’s oceans. Emphasis is placed on the interactions and interrelationships between physical, chemical, biological, and geological processes that contribute to both the stability and the variability of the marine environment.

Eligibility Guidelines: Successful completion of two years of high school lab science are recommended. Students who pass MARN 1002 are not eligible for MARN 1003. Students who pass MARN 1003 are not eligible for MARN 1002.

MARN 1003: Introduction to Oceanography with Laboratory
Four credits. Offered Fall, Spring, or Full-year.

Processes governing the geology, circulation, chemistry, and biological productivity of the world’s oceans. Emphasis on the interactions and interrelationships of physical, chemical, biological and geological processes that contribute to both the stability and the variability of the marine environment. Laboratory experiments, hands-on exercises, and field observations including required cruise on research vessel.

Eligibility Guidelines: Successful completion of two years of high school lab science are recommended. Not open to students who have passed MARN 1002.

Maritime Science

MAST 1200: Introduction to Maritime Culture
Three credits. Offered Fall, Spring, or Full-year.

A study of history and literature to understand the international maritime culture that links peoples, nations, economies, environments, and cultural aesthetics.

Eligibility Guidelines: Successful completion of two years of high school history and two years of high school English are recommended.

Mathematics

MATH 1030Q: Elementary Discrete Mathematics
Three credits. Offered Fall or Spring.

UConn ECE Math 1030Q cannot be taken concurrent with or after UConn ECE Math 1131Q or 1132Q. Problem solving strategies, solutions of simultaneous linear equations, sequences,
counting and probability, graph theory, deductive reasoning, the axiomatic method and finite geometries, number systems.

*Eligibility Guidelines: Successful completion of one year of pre-calculus is recommended.*

**MATH 1131Q: Calculus I**
Four credits. *Offered Fall only.*

Students who matriculate to UConn cannot receive credit for MATH 1131Q and 1151Q. Limits, continuity, differentiation of algebraic and transcendental functions, antidifferentiation, definite integrals, the Fundamental Theorem of Calculus, u-substitution, with applications to the physical and engineering sciences.

*Eligibility Guidelines: Successful completion of one year of pre-calculus is required. A student must pass MATH 1131Q with a grade of a “C” or higher to continue on to MATH 1132Q. To receive credit for the MATH 1131Q – MATH 1132Q sequence a student must pass MATH 1131Q in the Fall with a C or higher and continue to MATH 1132Q in the following Spring. The sequence must be completed in one academic year.*

**MATH 1132Q: Calculus II**
Four credits. *Offered Spring only. Prerequisite: MATH 1131Q in the immediately preceding semester.*

A continuation of MATH 1131Q with techniques of integration, applications of integration, infinite sequences and series, power and Taylor series, polar coordinates and parametric equations, with applications to the physical sciences and engineering.

*Eligibility Guidelines: Successful completion of one year of pre-calculus is required. A student must pass MATH 1131Q with a grade of a “C” or higher to continue on to MATH 1132Q. To receive credit for the MATH 1131Q – MATH 1132Q sequence a student must pass MATH 1131Q in the Fall with a C or higher and continue to MATH 1132Q in the following Spring. The sequence must be completed in one academic year.*

**Music**

**MUSI 1001: Music Appreciation**
Three credits. *Offered Fall, Spring, or Full-year.*

An approach toward intelligent listening, illustrated by recordings.

*Eligibility Guidelines: No previous training required.*
MUSI 1003: Popular Music and Diversity in American Society
Three credits. Offered Fall, Spring, or Full-year.

An introduction to popular music and diversity in America: jazz, blues, Top-40 pop, rock, hip-hop, and other genres. Musicians and their music studied in the context of twentieth-century and contemporary American society, emphasizing issues of race, gender, class, and resistance.

Eligibility Guidelines: No previous training required.

MUSI 1011: Fundamentals/Ear Training I
Three credits. Offered Fall, Spring, or Full-year.

Basic skills in note reading, rhythm, meter, pitch symbols, scales, key-signatures, intervals, triads, sight-singing, and dictation. No previous training is required.

Eligibility Guidelines: Completion of at least one year of preparatory work in music courses at the high school level is recommended.

MUSI 1012: Fundamentals/Ear Training II
Three credits. Offered Fall, Spring, or Full-year.

Further development of skills in music reading, sight-singing, and dictation.

Eligibility Guidelines: A student must pass MUSI 1011 with a grade of a “C” or higher to continue on to MUSI 1012.

Natural Resources and the Environment

NRE 1000E: Environmental Science
Three credits. Offered Full-year only.

An introduction to basic concepts and areas of environmental concern and how these problems can be effectively addressed. Topics include human population; ecological principles; conservation of biological resources; biodiversity; croplands, rangelands, forestlands; soil and water conservation; pollution and water management; and wildlife and fisheries conservation.

Eligibility Guidelines: Successful completion of two years of high school science is recommended.

Philosophy

PHIL 1101: Problems of Philosophy
Three credits. Offered Fall, Spring, or Full-year.
Topics may include skepticism, proofs of God, knowledge of the external world, induction, free-will, the problem of evil, miracles, liberty and equality.

*Eligibility Guidelines: Instructor consent is required.*

### Physics

**PHYS 1201Q: General Physics I**
Four credits. *Offered Fall, Spring, or Full-year.*

Basic facts and principles of physics. The laboratory offers fundamental training in precise measurements.

*Eligibility Guidelines: Successful completion of high school chemistry is recommended.*

**PHYS 1202Q: General Physics II**
Four credits. *Offered Fall, Spring, or Full-year.*

Basic facts and principles of physics. The laboratory offers fundamental training in precise measurements.

*Eligibility Guidelines: Successful completion of pre-calculus or introductory calculus is recommended. A student must pass PHYS 1201Q with a grade of a “C” or higher to continue on to PHYS 1202Q.*

**PHYS 1401Q: General Physics with Calculus I**
Four credits. *Offered Fall, Spring, or Full-year.*

Students who matriculate to UConn may take PHYS 1401Q for not more than two credits, with the permission of the instructor, if students received credits for PHYS 1201Q. Quantitative study of the basic facts and principles of physics including a lab component. The laboratory offers fundamental training in physical measurements. Recommended for students planning to apply for admission to medical, dental or veterinary schools and also recommended for science majors for whom a one year introductory physics course is adequate.

*Eligibility Guidelines: Successful completion of pre-calculus or introductory calculus is recommended.*

**PHYS 1402Q: General Physics with Calculus II**
Four credits. *Offered Fall, Spring, or Full-year.*
Continuation of PHYS 1401Q. Quantitative study of the basic facts and principles of physics. The laboratory offers fundamental training in physical measurements. Recommended for students planning to apply for admission to medical, dental or veterinary schools. It is also recommended for science majors for whom a one year introductory physics course is adequate.

*Eligibility Guidelines:* Successful completion of pre-calculus or introductory calculus is recommended. A student must pass PHYS1401Q with a grade of a “C” or higher to continue on to PHYS 1402Q.

**Political Science**

**POLS 1002: Introduction to Political Theory**
Three credits. *Offered Fall, Spring, or Full-year.*

Major themes of political theory such as justice, obligation, and equality, and their relevance to contemporary political concerns.

*Eligibility Guidelines:* One year of high school history or high school civics, or instructor consent, is recommended.

**POLS 1202: Introduction to Comparative Politics**
Three credits. *Offered Fall, Spring, or Full-year.*

A survey of institutions, politics, and ideologies in democratic and non-democratic states.

*Eligibility Guidelines:* One year of high school history or high school civics, or instructor consent, is recommended.

**POLS 1402: Introduction to International Relations**
Three credits. *Offered Fall, Spring, or Full-year.*

The nature and problems of international politics.

*Eligibility Guidelines:* One year of high school history or high school civics, or instructor consent, is recommended.
**POLS 1602: Introduction to American Politics**  
Three credits. *Offered Fall, Spring, or Full-year.*

Analysis of the organization and operation of the American political system.

*Eligibility Guidelines: One year of high school history or high school civics, or instructor consent, is recommended.*

---

**Sociology**

**SOCI 1001: Introduction to Sociology**  
Three credits. *Offered Fall, Spring, or Full-year.*

Modern society and its social organization, institutions, communities, groups, and social roles: the socialization of individuals, family, gender, race and ethnicity, religion, social class, crime and deviance, population, cities, political economy, and social change.

*Eligibility Guidelines: Successful completion of at least one year of a high school history or social studies course or instructor consent is recommended.*

---

**Spanish**

**SPAN 3177: Composition & Reading for Spanish Speakers**  
Three credits. *Offered Fall, Spring, or Full-year.*

Grammar, written composition, and readings for speakers of Spanish with little or no formal training. Emphasis is on Puerto Rican literature.

*Eligibility Guidelines: Instructor consent.*

---

**SPAN 3178: Intermediate Spanish Composition**  
Three credits. *Offered Fall, Spring, or Full-year.*

This course provides a thorough review of grammar and methodical practice in composition leading to command of practical idioms and vocabulary.

*Eligibility Guidelines: Successful completion of three or more years of high school Spanish or instructor consent is recommended.*
**SPAN 3179: Spanish Conversation: Cultural Topics**  
Three credits. *Offered Fall, Spring, or Full-year.*

Recommended preparation: SPAN 3178. In-depth development of speaking skills through cultural readings, group discussions and oral presentations on selected topics concerning the Spanish-speaking world.

*Eligibility Guidelines: Successful completion of three or more years of high school Spanish, successful completion of SPAN 3178, or instructor consent is recommended.*

---

**Statistics**

**STAT 1100Q: Elementary Concepts of Statistics**  
Four credits. *Offered Fall, Spring, or Full-year.*

A standard approach to statistical analysis primarily for students of business and economics; elementary probability, sampling distributions, normal theory estimation and hypothesis testing, regression and correlation, exploratory data analysis. Learning to do statistical analysis on a personal computer is an integral part of the course.

*Eligibility Guidelines: Successful completion of Intermediate Algebra/Algebra II is required.*

---

**Sustainable Plant and Soil Sciences**

**SPSS 1110: Fundamentals of Horticulture**  
Three credits. *Offered Fall, Spring, or Full-year.*

*Eligibility Guidelines: Successful completion of one year of high school biology recommended.*

---

**SPSS 1150: Agricultural Technology and Society**  
Three credits. *Offered Fall, Spring, or Full-year.*

Development of agricultural systems and technologies and their influence on societies. Topics include plant and animal domestication, food and industrial crops and centers of production, environmental issues, and agricultural ethics.

*Eligibility Guidelines: Successful completion of one year of high school biology recommended.*
**SPSS 2120: Environmental Soil Science**
Three credits. Offered Fall, Spring, or Full-year.

Introduction to the physical, chemical and biological properties of soils. The relationship between soils and the growth of higher plants. Impact of soils on environmental quality.

*Eligibility Guidelines: Successful completion of one year of high school chemistry recommended.*

**SPSS 2520: Floral Art**
Two credits. Offered Fall, Spring, or Full-Year.

The study of flower arrangement as an art form with emphasis on historical background, artistic principles, color harmony and care of perishable media. Individual expression is encouraged in the creation of floral composition.

*Eligibility Guidelines: Successful completion of one year of high school chemistry recommended.*

**SPSS 3230: Biotechnology- Science, Application, Impact, Perception**
Two credits. Offered Fall, Spring, or Full-year.

The study of flower arrangement as an art form with emphasis on historical background, artistic principles, color harmony and care of perishable media. Individual expression is encouraged in the creation of floral composition.

*Eligibility Guidelines: Successful completion of one year of high school biology recommended.*

**SPSS 3245: Plant Breeding and Biotechnology**
Three credits. Offered Fall, Spring, or Full-year.

Principles and applications, economic, social and environmental impacts, advantages, potentials and limitations of major traditional and modern plant breeding technologies including crossing/hybridization, mutagenesis, genetic engineering and genome editing.

*Eligibility Guidelines: A student must pass SPSS 3230 with a grade of a “C” or higher to continue on to SPSS 3245.*

**SPSS 3530: Advanced Floral Design**
Two credits. Offered Fall, Spring, or Full-year. Prerequisite: SPSS 2520.
In-depth study of post-harvest requirements for specialized floral crops. Exposure to novel floral materials and abstract, tribute, high-style, and wedding designs. Retail price structuring, wire services, and mass-production concepts.

*Eligibility Guidelines: A student must pass SPSS 2520 with a grade of a “C” or higher to continue on to SPSS 3530.*
