High School Site Rep Tasks

Welcome to the University of Connecticut Early College Experience concurrent enrollment program! UConn ECE provides a convenient online registration process using DualEnroll.com. Here’s how to complete the High School tasks associated with student registrations.

The Primary Site Representative will receive an email notification when a task has been assigned to you. Tasks include Confirm Course Assignment, Confirm Waiver Status, or Approve Drop. Click on the blue link in the email to log into the system. Be sure to check your Junk/SPAM folder if you are not receiving emails.

You can also login directly by going to the URL listed below and entering your login credentials: https://uconn.dualenroll.com

Click on the Student tab at the top of your dashboard to access the list of students attending your high school who have initiated a registration with the system. The toolbar at the top of the student list allows you to search, filter, and batch process. Tasks assigned to you will be highlighted in yellow and at the top of the list.

Term can be used to narrow the search to a specific term, or you can select All Active Terms to see all active registrations.

By clicking on the Ellipses ( ) you can access Enrollment forms, registrations history, notifications that have been sent, abandon a non-completed registration, and change a course section.

Abandon is used to cancel a registration that is not yet complete.

Site Rep: Confirm Course Assignment

Click on the blue underlined link highlighted in yellow, under the Steps column, to execute the task. Select if the student is eligible for the listed course and enter any needed comment.

Click on Complete Step when done.

Updated as of March 2023
High School Site Rep Tasks

Tasks assigned to the Site Representative can be completed in batch mode. This means you can complete the same step for multiple students/registrations as a single step as opposed to one at a time. To activate batch mode you must first be on the Student tab.

Activate Batch mode

1) Select the step to be batched from the Step Action filter
2) Select complete in batch mode from the Step Action filter.

Since the Site Representative steps are stackable, the screen display in batch mode will show all the students who need the step completed on the same screen. Each student on the task is displayed and you can complete the step for all students on the same screen. If there are more students than can fit onto the screen, you will have a next button to view the additional students.

Site Rep: Confirm Waiver Status

Select if a student qualifies for a program fee waiver utilizing the CSDE Direct Certification List as referenced in the ECE Waiver Policy and click COMPLETE STEP.

Site Rep: Approve Drop Request

If a completed registration has a request to be dropped, the HS Site Rep will be asked to approve the drop.
Registration Reports

Registration reports are a helpful tool to track the progress of your students and get a full picture of how they are moving through the registration process. Below are instructions on how to run and utilize the available reports in UConn.DualEnroll.com. Reports can be run as often as necessary.

Login to UConn.DualEnroll.com with your username and password.

You can click the Students tab to see each student registration request and the current step they are in of the registration process or use the Reports tab to view the data in CSV/Excel format.

To view the data in CSV/Excel format, click Reports on the top of your homepage.

Under Choose Report: select Registrations with Status-Abbreviated (with per term). Select All Active Terms to get a report of all your classes and the registration requests from each student. Your high school will autofill.

Click Generate.

Once the report generates the button will update to Download. Click Download.

Once open, filter for needed fields/columns. If you manipulate the data, be sure to change the file type to Excel Workbook before saving, as CSV files will not keep the edits.

Reference the Workflow Guide for definitions of each step and status.
